### CONTRACTOR GIVEN THE GO-AHEAD

Following the action of the parish meeting, Sept. 27th the Board of Trustees on Oct 2nd gave the contractor the green light. Formal contract will be made by the architect, signed by the contractor, (E.L.Shea) and the trustees.

Which means the foundation will be put in any day now and hopefully work completed next April.

With the re-assessment of finances and consequent modification of plans it looks as though we would come up with about eighty percent of what we shot for. That is not too bad!

Of course if we had about twenty-thousand dollars extra we could complete the original this year!

### WELL DONE

The Music Committee is to be thanked for securing the diverse and interesting special music this summer. May they wave long.

### AUCTION

November 15th the Alliance is to hold an auction - preferably a public one - to raise money toward the new church. If all members and friends will donate something saleable (this is not a rummage sale) Ruth Beal, Corace Beal or Ruth Royal will gladly accept it - them, those.

### BORN
